College YouTube Channel

ICT Cell, Mahatma Gandhi Government Arts College, Mahe has launched a dedicated YouTube Channel of MGGAC, Mahe with an aim of providing a free and open platform to bring together digital as well as digitizable resources from all the esteemed faculty members and interested students from various departments of MGGAC, Mahe. This initiative also seeks to bridge the digital divide for students who have hitherto remained untouched by the digital revolution in education and have not been able to join the mainstream of the knowledge economy.

ICT Cell requests interested faculty members as well as students to contribute to the channel so that it can reach out to a larger audience and can contribute to a greater cause of revolutionising E-learning.
