INTRODUCTION

Mahatma Gandhi Government Arts College, situated at Mount Vera, Chalakkara, Mahe and built in a serene, picturesque, sprawling campus is an outcome of the efforts of the Puducherry administration with the avowed objective of imparting quality education in Commerce, Humanities and Science to all the constituent units of the Union Territory of Puducherry.

The College was inaugurated on 11th December 1970 by Shri. B.D. Jatti, His Excellency the Lt. Governor of Puducherry. Prof. M.M. Ghani, Vice Chancellor, University of Calicut, unveiled the plaque. The function was presided over by Shri. M.O.H. Farook, the Hon'ble Chief Minister of Puducherry.

The institution started off as a junior college affiliated to the University of Calicut. It attained the status of a full-fledged degree college in the year 1973 and a Post Graduate Institution in the year 1992. The college is presently affiliated to the Pondicherry University and is accredited 'B' Grade by NAAC (National Assessment and Accreditation Council). The College is participating in NIRF (National Institutional Ranking Framework) India Ranking and in the last 3 years it is placed among top 150 colleges of India. In NIRF India Ranking 2022, college has secured 99th rank. The college has good infrastructural facilities, well equipped laboratories, qualified and experienced Faculties.

OUR VISION

To prepare the young students of rural background hailing from a small culturally distinct region of India to face the challenges of the modern world and to enable them to contribute constructively to the emerging new economy and to the growing needs of an egalitarian society.

OUR MISSION

* To provide quality higher education to all the students of the region in basic sciences, humanities and commerce.
* To inculcate appropriate social, cultural, economic and environmental values amongst the students to facilitate their contributions to the development of this region.
* To undertake research studies and result-oriented projects, specific to the region, that may contribute to the economic development of the country.
* To enhance and develop the technological skill of the students and to make them globally competitive.
* To make the students realize their roles in serving the cause of social justice and to contribute their share to the national development.

INTRODUCTION

Mahatma Gandhi Government Arts College, situated at Mount Vera, Chalakkara, Mahe and built in a serene, picturesque, sprawling campus is an outcome of the efforts of the Puducherry administration with the avowed objective of imparting quality education in Commerce, Humanities and Science to all the constituent units of the Union Territory of Puducherry.

The College was inaugurated on 11th December 1970 by Shri. B.D. Jatti, His Excellency the Lt. Governor of Puducherry. Prof. M.M. Ghani, Vice Chancellor, University of Calicut, unveiled the plaque. The function was presided over by Shri. M.O.H. Farook, the Hon'ble Chief Minister of Puducherry.

The institution started off as a junior college affiliated to the University of Calicut. It attained the status of a full-fledged degree college in the year 1973 and a Post Graduate Institution in the year 1992. The college is presently affiliated to the Pondicherry University and is accredited 'B' Grade by NAAC (National Assessment and Accreditation Council). The College is participating in NIRF (National Institutional Ranking Framework) India Ranking and in the last 4 years it is placed among top 150 colleges of India. In NIRF India Ranking 2023, college has been placed among the top 101 to 150 colleges of India. The college has good infrastructural facilities, well equipped laboratories, qualified and experienced Faculties.

OUR VISION

To prepare the young students of rural background hailing from a small culturally distinct region of India to face the challenges of the modern world and to enable them to contribute constructively to the emerging new economy and to the growing needs of an egalitarian society.

OUR MISSION

* To provide quality higher education to all the students of the region in basic sciences, humanities and commerce.
* To inculcate appropriate social, cultural, economic and environmental values amongst the students to facilitate their contributions to the development of this region.
* To undertake research studies and result-oriented projects, specific to the region, that may contribute to the economic development of the country.
* To enhance and develop the technological skill of the students and to make them globally competitive.
* To make the students realize their roles in serving the cause of social justice and to contribute their share to the national development.

INTRODUCTION

Mahatma Gandhi Government Arts College, situated at Mount Vera, Chalakkara, Mahe and built in a serene, picturesque, sprawling campus is an outcome of the efforts of the Puducherry administration with the avowed objective of imparting quality education in Commerce, Humanities and Science to all the constituent units of the Union Territory of Puducherry.

The College was inaugurated on 11th December 1970 by Shri. B.D. Jatti, His Excellency the Lt. Governor of Puducherry. Prof. M.M. Ghani, Vice Chancellor, University of Calicut, unveiled the plaque. The function was presided over by Shri. M.O.H. Farook, the Hon'ble Chief Minister of Puducherry.

The institution started off as a junior college affiliated to the University of Calicut. It attained the status of a full-fledged degree college in the year 1973 and a Post Graduate Institution in the year 1992. The college is presently affiliated to the Pondicherry University and is accredited 'B' Grade by NAAC (National Assessment and Accreditation Council). The College is participating in NIRF (National Institutional Ranking Framework) India Ranking and in the last 5 years it is placed among top 150 colleges of India. In NIRF India Ranking 2024, college has been placed among the top 101 to 150 colleges of India. The college has good infrastructural facilities, well equipped laboratories, qualified and experienced Faculties.

OUR VISION

To prepare the young students of rural background hailing from a small culturally distinct region of India to face the challenges of the modern world and to enable them to contribute constructively to the emerging new economy and to the growing needs of an egalitarian society.

OUR MISSION

* To provide quality higher education to all the students of the region in basic sciences, humanities and commerce.
* To inculcate appropriate social, cultural, economic and environmental values amongst the students to facilitate their contributions to the development of this region.
* To undertake research studies and result-oriented projects, specific to the region, that may contribute to the economic development of the country.
* To enhance and develop the technological skill of the students and to make them globally competitive.
* To make the students realize their roles in serving the cause of social justice and to contribute their share to the national development.

ACADEMIC PROGRAMMES

The college offers the following courses/programmes:

RULES FOR PAYMENT OF FEES

Tuition fees for the 1st year will be collected at the time of admission. The fee for each year is payable not later than the 10th working day from the date of commencement of academic year.

If a student of UG/PG fails to pay the fees on or before the day fixed as above, he/she has to pay a fine of Re. 1 per day for the rest of the period up to last working day of the month and if the fee is not paid within the end of the month the students name will be removed from the rolls. However, he/she will be readmitted on request and on payment of a readmission fee of Rs. 2/- in addition to the tuition fees and other dues including fine up to that date. Such students shall not get the benefit of attendance from the date of removal from the rolls of the college.

RULES OF ATTENDANCE AND LEAVE OR ABSENCE

1. Each student should be in his/her place in the class punctually (at the stated periods) for lecture class, practical etc.
2. Attendance will be taken during every period of work and absence during any one period in a session (FN/AN) will be treated as absent for that session.
3. A student entering the class after the bell should obtain permission from the teacher engaging the class. He/She will be marked late for the class in the attendance register and three such late marks will be counted as half a day absence.
4. No student shall be absent without submitting proper letter stating the reason for the absence. Leave applications for leave must be made in advance and must be addressed to the Head of the Department in the prescribed form.
5. The Head of the Department can grant leave up to three days. Leave for longer periods will be granted by the principal on the recommendations of the Head of the Department. All leave letters so granted shall be filed by the office and will be considered for recommending applications for condonation of shortage of attendance, within the permissible limits, at the time of sending the student for university examinations. Late applications will not be considered.
6. Leave applications must always be submitted in advance. In case, the absence due to unforeseen circumstances, application for leave for the period of absence must be submitted as soon as possible and not later than the first day of return to the college. In case of sickness extending over more than three days, the student shall be required to produce a medical certificate.
7. If a student absents himself/herself for a week or more without leave his/her name will be removed from the rolls. He/She should then get readmitted.
8. The total number of days of absence (with and without leave) of students will be put up every month on the Notice Board. Students are advised to ensure that they do not lose attendance beyond the permissible number of days. No individual warning will be issued to students regarding their attendance position.
9. The Attendance Progress Certificate required by the University for admission to the University Examination will be granted by the principal provided the following conditions are satisfied.
   (a) The conduct and progress of the student should have been satisfactory.
   (b) The student has put in the prescribed minimum of 75% of attendance in the semester.
   (c) The student has fulfilled the minimum requirements of attendance in each semester and has submitted his/her assignments regularly besides taking the internal assessment test and examinations.
   (d) Application for condonation of attendance will be recommended only once during the entire course.

* what is the current statement of economy in India

For investment perpetual, the current state of the nation's economy must first be determined. Even the process of determining the state of ~~the~~ economic development is not easy. Simply bcos not all the facts and figures one always available. Reporting provides an automatic big in data and information. At best, the investor has only estimates.

The improvement in reporting techinques from compilication of the data collected for the goverment by the private enterprice that predict the future help to tell where the economy is with greater certainty If the country economy is expected to grow in the future at a substatial rate compared with that of the past decade, the one course of action is obviously to invest in equity. If one segment of the economy is expected to grow faster than the economy as a whole then the investor will attempt to concentrate in this rapidly growing area.

If on the other hand, the economy expected to begin a period of cyclical or secular deline. The investor be more defensive. Under these conditions bond would be much more appealing than equity. Investment climate

in an economy can be observed from the GNP and its components GNP stands for Gross National product, the broadest measure of economic is where if it has been and where it is going.

It represents the aggregate amount of goods and services produced in the national economy for a period of time, usually one year. Economists and investor deal in terms of the GNP, and have developed the game of "growthmanship" using GNP as a measure of economic activity.

The process of development of the economy gained momentum during the 'Nineties with the initiation of major economic reforms in 1991. The economy has since then been successfully launched on to a higher growth trajection and has registered an improvement in a number of macroeconomic indicators in a short span of less than a decade, AV- shaped recovery from the blance of payment crisis of 1990-91 was followed by place of uninterrupted expansion at the average rate of 7.0 percent per annum during 1993-97. the average annual growth rate during the ninth five year plan (1997-2002) is now estimated at 5.4 per cent which is lower

than the plan target of 6.5%.

Although this rises new challenges for reinvigorating growth in the tenth five year plan the Indian growth record is one of the highest among the major economics in the world in recent trichinques. the Indian economy has been resilent in the face of several external shocks during this period such as the east asian crisis of 1997-98 the oil price increase of 2000-01, and the most recent world economic slowdocon.

Domestic shocks in the shape of an adverse security environment, natural disaster like the Orissa cyclone and Gujarat earthquake, and two consecutive years of poor agricultural performance have also been faced successfully by the economy.

The Indian economy is now ~~pointed~~ poised for a higher growth profile. The distinguishing feature of India's manoeconic pejormance in recent year has been the strong auduation of growth. Industry and services comprising 82 percent of the economy, registered double digit growth.

The setup in the overall growth momentum sithodis to agricultural not- with stangon standing occured inter al

Everything that surrounds or affects an organism during its lifetime is collectively referred to as its environment. It comprises both living and nonliving components. human civilisation and globalisation are the dominant culprits of constant change in the global environment in present scenario. various processes that can be said to contribute to the global environment problems include pollution, global warming, ozone depletion, acid rain, depletion of natural resources, overpopulation, waste disposal, deforestation and loss of biodiversity. Almost all these processes are the result of use of natural resources in unsustainable manner. these processes have highly negative impact on our environment. the

companies are expressing hope that under the upcoming budget, the government will also take steps on availability of loans for them. If such steps are taken by the government, then the housing projects are going to gain a lot of momentum. Actually let us tell you that the finance minister is going to present the general budget on 1st Feb 2023. Experts of the real est-ate sector are of view that during the upco-ming budget, the government may announce tax relief for buying houses, this can bring huge profits to customers as well as real estate companies. It is expected that according to the budget 2023 highlights, government will take great care of it.

Generally, the budget before general elections is always a much-anticipated one with everyone hoping for big, bold moves. But most budgets tends to fall short on the

surprise factor. This year's budget was no exception as it was mostly just a repackaging of old schemes with additional fund allocation. But salaried taxpayers were in for a surprise. They got much needed tax break. Various tax relief measures were introduced under the new tax regime. It looks like the government wants taxpayers to switch to the new tax regime and phase out the old tax regime. All we can hope for is enough time to adopt the new regime and make the most of the old one while it lasts. The Budget mentioned, inclusive development, reaching last mile, infrastructure and investment, unleashing potential, green growth, youth power, financial sector as its seven priorities. This highlight that every direct taxes and indirect taxes as well;

ii) at a point inside the solid sphere.

i) At a point outside the solid sphere :

Let 'P' be a point at a distance r from the centre 'O' of a solid sphere, of mass 'M' and Radius 'R', outside the sphere, ie $r > R$.

Imagine the sphere to consist of a number of spherical shells of masses, m_1, m_2, m_3 etc..

∴ Gravitational potential at point 'P' due to each spherical shell = $-$(mass of spherical shell) $\times \frac{G}{R}$.

∴ P due to different shells are $-m_1\frac{G}{R}, -m_2\frac{G}{R} - m_3\frac{G}{R}$ etc..

∴ Potential at P due to the whole solid sphere is given by $V = -(m_1+m_2+m_3+\ldots)\frac{G}{R}$

$\because (m_1+m_2+m_3+\ldots) = M$, mass of solid sphere

∴ gravitational potential at 'P' due to solid sphere, $V = -\frac{MG}{r}$

ii) At a point inside the solid sphere:

Let P now lie inside the solid sphere at a distance r from the centre 'O' of the sphere,

ie $r < R$

mass of sphere $= \frac{4}{3}\pi r^3 \times \rho$ $\quad \rho \rightarrow$ volume density

$$V = -\frac{\text{mass of sphere}}{r} G = -\frac{\frac{4}{3}\pi r^3 \rho G}{r}$$

$$\Rightarrow -\frac{4}{3}\pi r^2 \rho G.$$

To determine the potential V due to all the outer shell.

Let us consider one shell of radius x and thickness dx ie of V.

Volume = area x thickness $= 4\pi x^2 dx$

$\therefore$ mass $= 4\pi x^2 dx \rho$

V at P due to this shell $= -\frac{4\pi x^2 dx \rho}{x} G$

$\therefore$ Potential at P due to all the shells

$$= \int_r^R -4\pi\rho G x \, dx$$

$$= G\left[-4\pi G\rho \int_r^R x \, dx\right]$$

$$= -4\pi G\rho \left[\frac{x^2}{2}\right]_r^R$$

6) मार्क्सवाद के सिद्धांत

मार्क्सवादी कला और साहित्य चिंतन मार्क्सवादी दर्शन से प्रभावित है। मार्क्सवादी चिंतन को प्रगतिशील चिंतन भी माना जाता है। मार्क्सवाद का जन्मदाता कार्ल मार्क्स (1818-1883) और फ्रडरिक एंगिल्स (1820-1895) हैं। इन दोनों विचारकों ने इतिहास, समाजशास्त्र विज्ञान अर्थ शास्त्र व राजनीति विज्ञान की समस्याओं पर संयुक्त रूप में विचार करके जिस निश्चित विचारधारों को विश्व के सामने रखा उसे मार्क्सवाद नाम दिया गया।

मार्क्स ने पर्याप्त साहित्य लिखकर विश्व के चिंतनधारा को प्रभावित किया। साहित्य संबंधी उनकी विचार उनकी ग्रन्थों में देखते हैं। मार्क्स की साहित्य मुख्यत: सामाजिक - आर्थिक विषमता व समस्याओं पर ही आधारित है। उनकी मान्यताओं पर्याप्त व्यापक है, लिन्होने लिखन की विभिन्न क्षेत्रों में प्रभावित हैं। मार्क्स प्राय: अनेक विषय एंगिल्स के साथ मिलकर लिखा है। मार्क्स का कला और साहित्य संबंधी विचार 'लिटरेचर एण्ड आर्ट' नाम ग्रन्थ में होता है। मार्क्सवादी चिंतन को मूल रूप से चार भाग में विभाजित है द्वन्द्वात्मक भौतिकवाद, ऐतिहासिक भौतिकवाद, वर्ग संघर्ष की सिद्धांत, अतिरिक्त-मूल्यों की सिद्धांत

Speciation. exam.

Species is a basic or lowest unit in the linear classification of animals.

Speciation

Speciation is referred to the formation of new species.

* the study of the speciation helps to understand the process of evolution.
* New species are arrise by the establishment of Reproductive barrier or reproductive isolation.
* the reproductive isolation is the basic to origin of species and actualy appears by the accumulation of genetic differences as divergence which are caused by Mutation, Recombination, genetic drift, and hybridization, and Natural selection.
* All this factors can increase the genetic difference only if the population of species are geographically isolated.

Types of speciation.

there are 2 type of Speciation.

1. phyletic speciation.
2. True speciation.

Speciation Exam

Speciation

- Speciation refers to formation of new species
- The study of speciation understand the process of evolution
- Speciation is influenced and controlled by variety of factors. New species arises by the establishment of reproductive barrior or Reproductive Isolation.
- The Reproductive Isolation is the basis to the origin of species and actually appears by the accumulation of genetic differences or divergens. which are caused by mutations. Recombinations, hybridisation genetic drift and Natural selection all these factors can increas the genetic differences only is the population of species are geographically isolated.

Types of Speciation

There are 2 types of speciation

They are phyletic speciation and True speciation

1. phyletic speciation

When one species is transformed into another. This speciation is called phyletic speciation

eg: Species A $\xrightarrow{\text{time}}$ Species B $\xrightarrow{\text{time}}$ Species C

This phyletic speciation again classified into 2 types Autogenous and Allogenous. transformations.

① PEPTIDE BOND

Peptide bond is the bond formed between the amino acid unit of a protein molecule. It formed between the carboxyl group of carbon & amino group by the elimination of H_2O molecule..

Peptide bond is also called Amide bond. Sometimes it's formed between 2 polypeptide chain & its called Dipeptide. Similarly Tripeptide, Tetrapeptide etc Oligopeptide is formed of less than 10 peptide bond & more than 10 peptide result in Polypeptide chain. Peptide bonds of adjacent polypeptide are sometimes linked by Disulfide bond.

Q.2 It is the chain depentance about the need of food.

Food chain

Detritus food chain (DFC) Grazing Food chain (GFC)

There are two types of Food chains, namely, Detritus Food chain (DFC) & Grazing Food chain (GFC). In this Grazing Food chain is the Majour Food chain.

The Detritus Food chain starts from the Dead organic materials.

eg:- Dead organic matter → Decomposers → primary consumers → secondary consumers...

like:- Food vaste → Bacteria, Fungi → Animals → Human.

Micro Economics - I

1. Micro Economics and its use

* Micro Economics is a study of econic actions of individuals and small group of individual. It includes the study of individual, firms, particular households. individual price, wages, income, individual industries, Particular commodities etc.
* Micro Economics is therefore microscopic study of the Economy. It is looking the economy through a microscope regarding the working of markets for individual commodities and behaviour of individual consumers and Producers.
* It Study the inter relationships of individual households and individual firms. An individual firms and individual industry to each other. Therefore it involves the study of Aggregates.
* Micro economics Study how the resources are allocated to the production of particular goods and services
* Micro Economics assumes the total quantity of resources has given and explains their allocation of their production of the rare commodity

2) ~~It is base~~ Limitations of Micro Economics

* it is based on unrealistic assumption of full emppgment in the economy in reality. It is only under employment and many more resources to be explore.
* it is based on the assumption of laizzes faise but actually this was practice during great depression of 1930's
* Micro Economics is concerned with the study ~~of~~ parts and neglects. It is impossible to describe a large and complex universe like that of an economic system ustern of individual items. Its gives us a picture of the economy in an Imprecise manner.
* Micro Economics is not only inadequate but also misleading in analyzing various economic problems.

4) Macro Economics

- Macro Economics is a study of Aggregates. Covering the entire economy such as total employment, Unemployment, national Income, total consumption, total savings, aggregate supply, aggregate demand etc.
- Macro Economics is also known as the theory of income and employment or Income Analysis.
- It studies the causes of unemployment and other determinance of employment.

Similarly it Studies the effect of ~~that~~ total quantity of money and General price levels.

- The Study of Macro Economics variable is important to understand the working of an economy. It is related to the problems has ~~economy~~ to the behaviour of total income, total output and employment and General price level which are measurable and facilitates ~~it~~ to study the factors affecting functioning of economy.
- last but not to least to understand the behaviour of individual units for which macro economics study is useful.

2) functions of money

money performed a no. of function
(1) primary function (2) secondary function
(3) contigent & (4) otherfunctions

I (1) primary function

The two primary function of money are (1) The act as a medium of Exchange
(2) The act as a unit value

As a medium of exchange it means its generally aceptable so there is freedom of choice we can buy a number of goods and servius there is Economic independence. it helps to increase the competition and widness of markets. it act as intermediary and helps to facilitate Exchange.

2) As a unit of value money that is the standard unit which expressed the values of all goods & services. The monetary unit expresses the value of each good or services in terms of price. if eliminate the needs quote price of apples in terms of oranges. so it facilitates to measure the Exchang. and the value of goods in the market it also helps in the Calculation of Economic import-ance such as estimation of costs & revenues of a firm costs and profitability of public Enterprises etc.

II (2) Sciondary function

there are classified in 3 (1) as a standard of duffered payments (2) as a store of value (3) as a transfer of value.

(1) → standard deffered payments
money acts as a standard of deffered or post poned payments. under barter system. it is easy to take loans in goods or grains but is difficult to make repayments is such perisable goods in the future. money has simplified both taking and possible for contracts to supply goods in future for agreed an payment of money it helps capital formation thus enables the financial development and capital Markets.

(2) money as a ~~store~~ transfer of value :- money is an acceptable means of payment & act as a store of value. A person who holds money in cash or assets can transfer that is any other person. eg:- he can sell his assets in Delhi & purchase fresh assets in Bangalore. Thus transfer of values from person in place to possible with money.

(3) money as a store of value :- money as a store of value meant is meet unforseen Emergencies to pay debit.

III contigent functions

money also performs certain contigent or incidental functions they are.
(1) money as the most liquid of all liquid assets.
(2) Basis of the credit system
(3) equaliser of marginal utilities of Productivities
4) measurement of national income.

IV other factors

money also performs functions which affect the decision of consumers and govt.

(1) helpful in making decision

it consumers needs his requirements on the basis of money held by him.

(2) money as a basis of adjustment

To carry out trade property adjustments between money Market & capital.

1) The problems associated with the barter systems are inability to make deffered payment lack of common measure value, difficulty in storage of goods, lack of double coincidence of wants → A system of exchanging goods with out using money is know as barter system. The problems associated with the barter system are inability to make deffered payments, lack of common measure value, difficulty in storage of goods, lack of double coinidence of wants.

→ The functioning of Barter system requires double coinidence of wants on the Bart of those who wants to exchang goods or soviles. The existence of double coinicidence of wants is a remote probability.

* lack of common measure of value.

Another difficulty relates to lack of common measuring unit. so that value of goods and servies can be measured the probem arises with regard to the promotion in which the two goods to be exchange

* indivicibilibty of certain goods

Barter system is based on exchang of goods with other goods it difficult to fix exchange rate. for contain goods which are indivisible.

* difficulty is storing value

it is difficult in store value under barter system.

* difficulty in making in deffered payments.

in the Barter economy. it is difficult in making payments.

* lack of specialisation

another difficulty of Barter system is the associated with the proxi duction systems.

→ 4) different types of money.

→ evaluation of money

(1) Explain the concept of IS curve using a diagram (3)

(2) Discuss the relative effectiveness of monetary and fiscal policy under different situation in a closed economy (10)

Answer

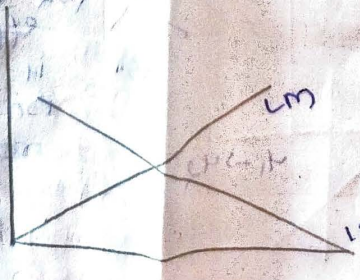

(2) monetary policy is associated with changes in money supply and interest rate money supply is effective it an increase in money supply increases output and employment changes in money supply changes the LM curve fiscal policy is associated with change in government expenditure and taxation. fiscal policy is effective if changes in government expenditure or taxation increases output and employment changes in fiscal policy affects the IS curve. The relative effectiveness of monetary and fiscal policy dependons the situation existing in the economy. we can have different situation as listed below.

(3)

(1) normal situation
(2) interest rate inelasticity of investment
(3) Liquidity trap
(4) interest rate inelasticity of money demand.

(1) Normal situation

In case of normal situation The IS curve is downward and the LM curves upward rising.

(c)

Let us now consider the effect of monetary policy and fiscal policy

If monetary policy taken the LM curve shift right.

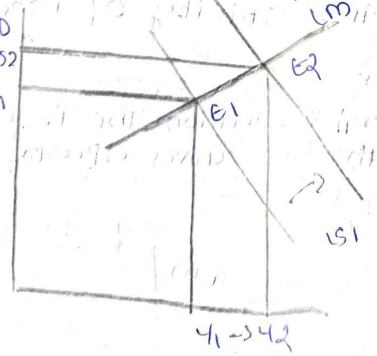

In the figure suppose IS_1 and LM_1 are the initial IS and LM curve. The initial equilibrium E_1 when monetary policy is initiated by increasing monetary supply the LM curve shift to LM_2. This shift the equilibriums to E2 we can see that interest rate has reduced from Y_1 to Y_2. An increase in monetary supply reduces interest rate and increases investment and output. This is because $Y = C + I(r) + G$. Thus monetary policy is effectiveness.

Effectiveness of fiscal policy in normal situation

Fiscal policy is associated with exchange in Government expenditure and taxation suppose Government spending increases without change in tax

This will shift the IS curve from IS_1 to IS_2 The LM curve will not change the change the initial equilibrium was E_1. Due to shift of IS curve the new equilibrium is E_2.

At E_2, the output level is Y_2 this due to increases from Y_1 to Y_2. IS_2 fiscal policy is effective However it is important not that rate also rise

Liquidity trap

In presence of Liquidity trap the LM cur is horizontal

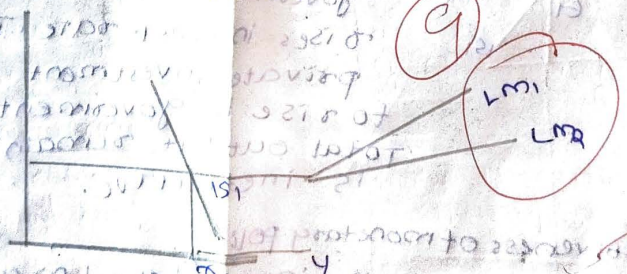

Effectiveness of fiscal Policy

when government expenditure is increased (fiscal policy), it shift the IS curve and income rises from Y1 to Y2.

Effectiveness of monetary Policy

when money supply is increased, interest rate will not fall presence of liquidity Trap. Thus monetary policy will remain in effective

Interest rate inelasticity of investment

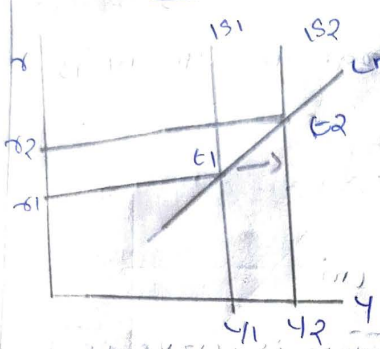

In case of interest rate inelasticity of investment, this is curve in vertical means that even if interest rate in elasticity of investment means that even if interest rate changes

(5) Effectiveness of fiscal policy

when government spending increase The IS curve will shift right. curve will shift right this increase income from Y1 to Y2. Even through interest rate rises, crowding out effect will not happen investment will not fall.

Effectiveness of monetary policy

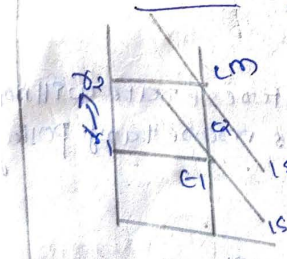

when money sapply is increased the LM curve will shift right & interest rate will fall. However output will not rise since. Is fixed Thus monetary policy is ineffective.

Interest rate inelasticity of money demand

when there is interest rate in elasticity of money demand, the LM curve is vertical

Effectiveness of fiscal policy

we can see that interest rate rises. However output is not changing this happens because an increase in government expenditure fully rises interest rate. This reduces private investment equal to rise in government expenditure. Total out put remain fiscal policy is ineffective.

Effectiveness of monetary policy.

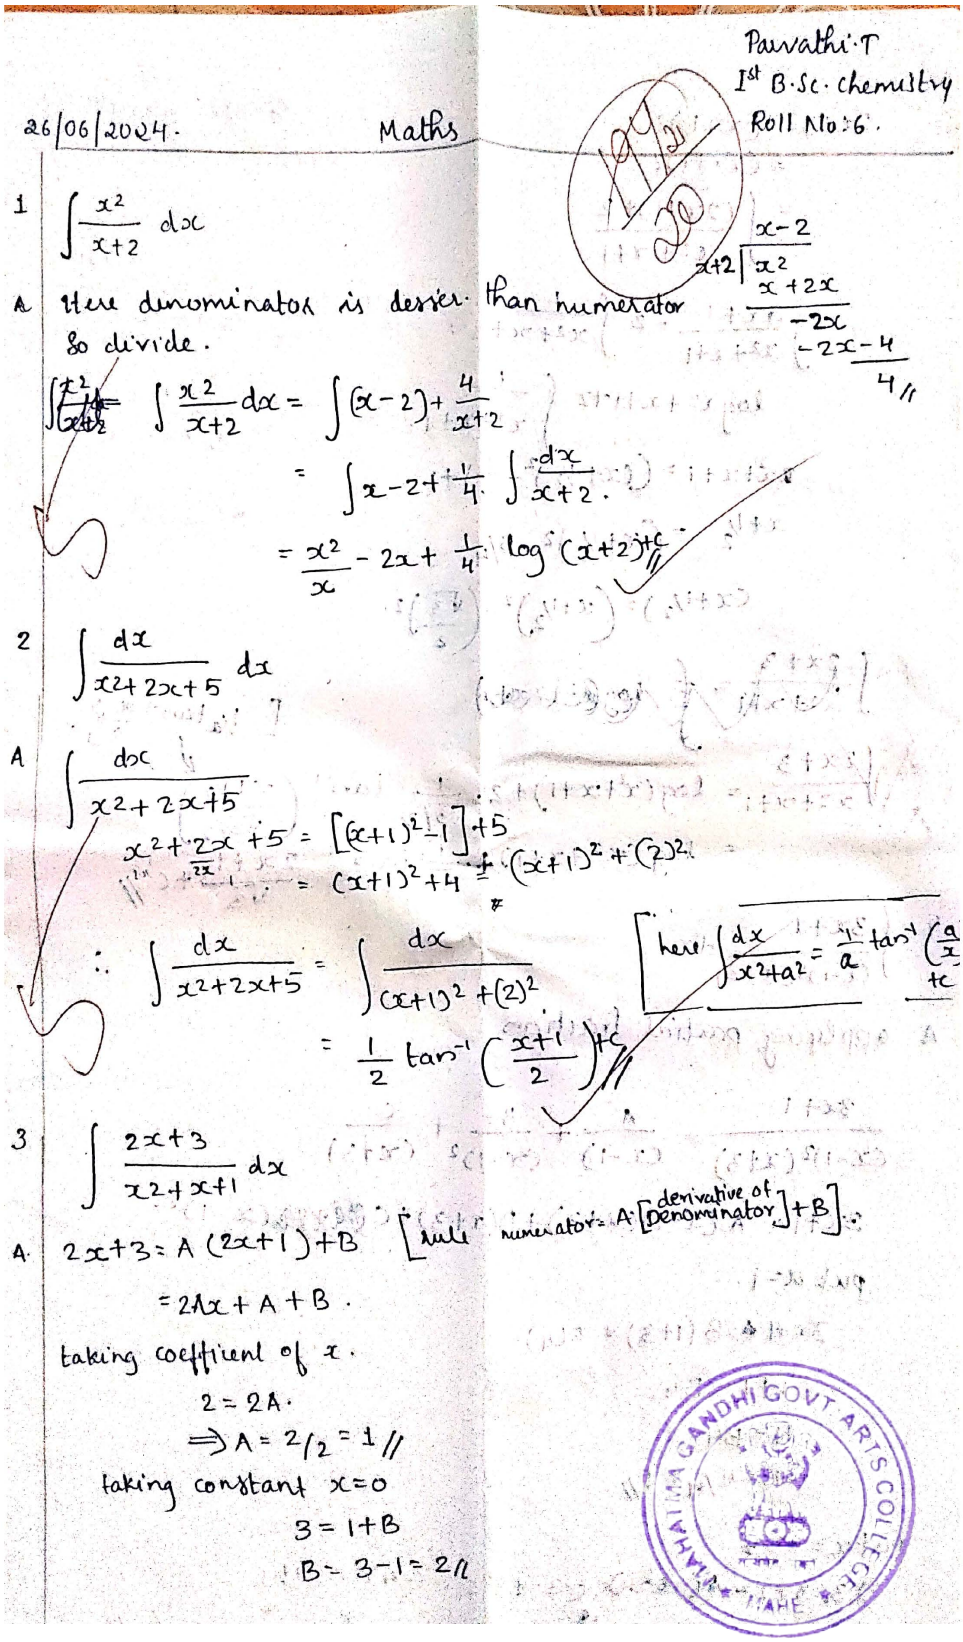

when money sapply is increased the LM curve shifts right This reduces interest rate and increases investment. Higher leads to high...

04.09.2018 - 2.30 PM to 4.30 PM - English

The tests for the Main and Allied papers may be conducted at Department level after preparing question papers at their convenience from 05.09.2018 to 07.09.2018.

The Internal Assessments marks (for theory and practical) should be awarded by the concerned faculty members who are handling the particular papers. The Internal Assessment marks should be furnished in the prescribed proforma. A copy of the same may be displayed in the Department Notice Board. They should also maintain a record of all Internal Assessment marks in their Departments. A copy of the Internal Assessment mark sheet may be submitted to the IQAC Co-ordinator.
